

IEEE International

Microwave & Antennas Symposium (IMAS)

Jeddah, Saudi Arabia 19th - 22nd October 2026

Young Professional Research Forum Competition CALL FOR PARTICIPATION – IMAS 2026

The IMAS 2026 Conference invites students and researchers to participate in the Young Professional Research Forum Competition, showcasing innovative research in a visually engaging and accessible format.

Participants are encouraged to present their work through well-designed posters that clearly highlight the research problem, methodology, and key findings. Emphasis should be placed on effective visual communication using figures, diagrams, and concise text.

Selected contributors will present their posters during a dedicated YP activity session during IEEE IMAS 2026 conference, where they can engage with attendees, experts, and evaluation panels in technical discussions.

- **Note:** The selected posters are dedicated for this competition only and will not be published through IMAS or IEEE Xplore

Event Details

► **Venue:**

IMAS 2026 Conference

► **Format:**

YP Poster Competition Session

Topics of Interest

Submissions are welcomed in all areas of electromagnetics and related fields, including antenna design, electromagnetic wave propagation, RF and microwave devices, circuits & systems, wireless communications, metamaterials and advanced materials, radar and sensing, computational electromagnetics, photonics, biomedical applications and related applied physics topics.

Eligibility

- Postgraduate students and undergraduate students with mature ideas that can be formulated in a poster activity session.
- Research topic must fall within the above mentioned fields and their related topics
- Signed endorsement letter from the advisor/supervisor stating the student status, the significance of the poster, and the candidates' eligibility for this competition.
- Selected candidates should present their posters in person during the dedicated YP research forum session of the IEEE IMAS 2026 conference.
